It is with great pleasure that we invite you, behalf of the Research and Development Centre "Telecommunications Without Borders", Ukrainian Association of Telecom Operators "TELAS", Ukrainian Internet Association and Council on Competitiveness of the ICT Industry of Ukraine, attend to

**INTERNATIONAL SYMPOSIUM “TELECOMMUNICATIONS WITHOUT BORDERS” -  
TWB-2013!**

The goal of TWB - 2013 is find the new aspects of transnational cooperation, to present original projects and solutions for potential investors, to assess the promising directions for Vendors, allow each participant to demonstrate the telecommunication community the best achievements and opportunities, to find or make a profitable business proposal.

You, your organization, staff and Telecom sector colleagues are most welcome to come along to this internationally recognized event - which is the each year that the whole operators, providers and vendors comes together in the one place in Ukraine.

In addition, we see the urgent need to create not only a platform for negotiations at the symposium, but also to provide participants some new and unique ideas and know-how, which would focus not only on quantitative but also qualitative development of our members' business, demonstrating the latest technologies and services. To this end, we have put in a schedule of the symposium the Specialized section "Information and communication projects"- Discussion of draft proposals for the Program of Development of the Industry of Ukraine ICT 2013-2015.

Symposium long and firmly established in the status of an effective tool for solving practical problems and to build partnerships in the telecommunications environment, becoming a "business bridge" between East and West.

Invest in your business and keep up to date with industry initiatives!

Experience excellent business networking and learning opportunities!

**We look forward to seeing you 21-23 August in Odessa!**
